

Life Insurance Needs Analysis

A Tool to Estimate the Right Amount of Life Insurance Coverage

- Annual Income Replacement:**
The amount of annual income your beneficiaries would need upon your death.
- Years Income is Needed:** x
The number of years your beneficiaries would need an annual income stream upon your death.
- Cash for Immediate Needs:** +
The amount needed to cover all final expenses upon your death. This includes funeral costs, medical expenses, probate fees, etc.
- Debts and Obligations:** +
Estimate the amount needed to pay off your debts and obligations. Include credit card balances, car loans, educational loans, and other remaining liabilities.
- Estimated Life Insurance Coverage Needed:** =
A general estimate of the amount of life insurance coverage you may need.

Connecting Financial and Insurance Professionals with the Products and Service they need

This Life Insurance Needs Analysis is intended only to provide a general estimate of the amount of life insurance coverage you may need. This analysis provides a snapshot of your current situation. You should complete a new Life Insurance Needs Analysis at least annually, and whenever your relevant information changes. The results of this analysis are based on your inputs and assumptions. Changes to those items will produce different results.
